

Sarang Bainalwar

Career Objective

As a dedicated and ambitious computer science engineering student, I aspire to leverage my strong foundation in computer science, programming, and problem-solving skills to contribute effectively to an innovative and dynamic team. My goal is to secure a challenging internship/entry-level position where I can apply my academic knowledge and gain hands-on experience in software development, artificial intelligence, or cybersecurity. I am eager to learn, adapt, and grow in a fast-paced technological environment while delivering high-quality solutions that make a meaningful impact.
